Business Law

Make smarter decisions to advance your goals

Our business law team understands business owners' drive for success, and provides tailored legal solutions and advice to make it happen. We consider risk, and seek viable solutions to help meet your objectives. We speak in plain English (the legal jargon stays in legal documents, where it belongs).

You'll get a lawyer who will work to understand your business, your tolerance for risk, and your goals. Each corporate lawyer on our team focuses exclusively on this area. We have extensive transactional experience and industry-specific knowledge to provide you with innovative, cost-effective solutions.

We advise clients on:

- Incorporations and new business startups
- Mergers, acquisitions and deal structuring
- Business agreements
- Shareholder agreements
- Financing
- Joint ventures
- Limited partnerships
- Corporate governance
- Estate freezes
- Trust planning for business
- Trademarks
- Franchising

Our clients range from new ventures to established businesses, in a variety of sectors, including healthcare and dental, technology, hospitality, real estate, construction, oil and gas, mining, land development, and manufacturing.

Investing in your business

We take the time to understand your business. Having a single-contact lawyer who knows your history helps us create efficiencies, which means we're up to speed and ready to help when you need it. We use our experience and extensive knowledge to bring you forward-thinking solutions.

We keep things simple and know when to scale up or down. You'll get a fee estimate at the beginning and because we assign tasks to the right people at the right seniority levels, you aren't paying higher fees unnecessarily.

You will also benefit from our network and connections, because we make introductions between our clients as often as possible.

Corporate lawyers who pick up the phone

You need a responsive lawyer who's available to talk to you and will reply to emails quickly. We make sure you get that level of service throughout the process, which is why your lawyer handles all communication, ensuring nothing slips through the cracks.
