Business After Hours: Small Business Week Edition

October 21, 2020

Small Business Week is a week dedicated to the hard working small businesses in Calgary and across southern Alberta. In this Business After Hours virtual networking event the Calgary Chamber will bring business leaders together to meet and learn about one another, keeping our business community strong and connected.

Throughout the evening business leaders will have conversations in smaller breakout rooms and circulate through rooms of three to five people. This will allow for better conversations and the opportunity to meet with all attendees during the event.
