About the Entrepreneurs:

Megan Szanik is the owner, visionary, creator and proprietor of espy Experience. The only thing Megan adores more than making an entrance is to convince - nay, show - you how hot you look in your jeans. Standing at the helm of a multi-million dollar independently owned business in Calgary's Inglewood community, Megan and the stylish espy team have raised more than \$250,000 to-date, for charitable causes close to their hearts, racked up thousands of followers on their spicy social platforms, and proudly sold more than 40,000 pairs of super-hot denim to their adoring retail fans.

Sebastian Sztabyb co-founded Phil & Sebastian in 2007, fueled by a love of both coffee and entrepreneurship. Sebastian manages the company and has played pretty much every role, from barista to roaster to green coffee buyer. Driven by a desire to revolutionize the Calgary coffee scene, Sebastian has spent nine years sharing his passion with one customer at a time, hoping to slowly change the way Calgarians see coffee.

Danijel Slisko is the President of United Decorating, Alberta's paint and coating experts, and Founder of Crown Paint, Canada's newest commercial and industrial paint manufacturer. With drive, determination and grit, Danijel has been a business owner in the paint industry since the age of 20. He has taken on the industry and with purpose - to build a great team and help them succeed.
