Webinar: Significant changes coming for Alberta's construction industry

June 14, 2021

For the first time in decades, Alberta is making major updates to its builders' lien legislation. Changes to the administration of payments, liens and holdbacks and dispute resolution is going to impact day to day operations and management of all construction projects in Alberta, big and small.

Join McLeod Law's Construction group for a presentation highlighting the key changes you need to be aware of and how to take advantage of the new opportunities (and handle the new challenges) that arise from these changes.
